My firm has specific experience in prosecuting cases against Uber given our work in the *Doe v. Uber Technologies* matter (Case No. 3:19-cv-03310-JSC), which is currently under submission in the Ninth Circuit.

Over the years I've had the pleasure to serve as an adjunct faculty member teaching trial advocacy at UC Berkeley Law School. I've also taught Moot Court at UC College of Law San Francisco (fka Hastings).

I am willing and able to immediately commit whatever time is necessary to do this job. I also work cooperatively with other members of the bar, be they plaintiff or defense counsel. My goal in any case is to be a member of a collaborative team, and to spare no effort to maintain credibility.

Since this MDL was established, the individuals listed on Exhibit A, attached, have been collaborating, and working cohesively, on procedural and substantive issues to prepare to move these cases forward. I support, and enjoy the support of, the additional applicants on this list for a leadership role on behalf of the plaintiffs in this litigation.

My most recent prior MDL experience stems from my service as one of the two liaisons in the JUUL MDL Proceedings with Judge Orrick. The JUUL leadership is among the most inclusive collection of lawyers I've encountered. One reason for that success is that leadership always focused on the merit of the idea, as opposed to the proponent. I hope to bring a similar dynamic to this case if given with the opportunity to do so. I've attached a copy of my CV as Exhibit B.

My firm has the resources to prosecute these cases expeditiously. I thank the Court for considering my submission, and I would be truly privileged to assist in this important case.

Very truly yours,

KHALDOUN A. BAGHDADI
